

LOWER ENDOSCOPIC ULTRASOUND

NAME: _____

You are scheduled for **LOWER ENDOSCOPIC ULTRASOUND** at the GI Center at the Glens Falls Hospital on _____ (date). Your procedure is scheduled for _____ but it will be necessary for you to arrive at _____ to allow our staff to prepare you for the procedure. **Please do not arrive at the GI Center prior to 7:00 AM as the GI Center does not open until 7:00 AM and the doors are locked until that time. The GI Center closes in the late afternoon and patients must be picked up no later than 4:30 PM.**

Patients failing to cancel their Lower GI Endoscopic Ultrasound appointment at least 7 days in advance will be billed an administrative fee of \$100 by Gastroenterology Associates of Northern N.Y., PC. This fee must be paid in full prior to scheduling future appointments. If you must cancel or reschedule the examination, please call 793-5034 at the earliest possible time. There are often significant delays in rescheduling and if there are any questions regarding the need to cancel due to sickness or other health issues, it is essential that you contact our office or our physician on call (after hours or on weekends).

The Glens Falls Hospital scheduling staff will be calling to pre-register you. If you have not been contacted by the Glens Falls Hospital scheduling staff within 10 days of your scheduled appointment, please call 926-5333.

On the day of the exam, please report directly to the GI Center, located past the emergency room entrance on the left (east) side of the hospital around to the back of the hospital. The parking lot for the GI Center is located on the back (south) side of the hospital immediately adjacent to the entrance to the GI Center. Whenever possible, please leave valuables including personal belongings at home. As well, please remove all jewelry, including piercings, and leave at home.

LOWER ENDOSCOPIC ULTRASOUND is an examination of the lower gastrointestinal tract (rectum, colon) by means of a flexible tube with a bright light. Endoscopic ultrasound uses sound waves to provide detailed images of the linings and walls of the gastrointestinal tract as well as organs adjacent to the gastrointestinal tract.

The preparation for a lower endoscopic ultrasound is two Fleet enemas (plain, not oil), given approximately 3 hours prior to the time of your appointment.

After you have completed your preparation at home, you will come to the hospital, where the test will be explained, and you will be given an opportunity to ask questions. After you change into your gown and robe, the nurse will insert a small intravenous catheter into a vein in your arm and tape it in place to administer medication before and during the test, as needed. You will be lying on the cushioned table on your left side.

Page – 2- Lower Endoscopic Ultrasound

When you are comfortable, the doctor will examine your rectum, and then insert the lubricated tip of the tube. During this test, some people experience gas-like sensations. This relates to the insufflation of air necessary for a proper examination. You might also experience the feeling that you need to move your bowels. This is caused by the presence of the tube and the air. If needed, more medication will be given to keep you comfortable. The examination usually takes from 20 to 40 minutes.

When the procedure has been completed, you will be taken to a recovery room where you will rest for a period of time. Then, the intravenous catheter will be removed from your arm and you may use the bathroom and get dressed. The doctor will then explain the results to you and your family. **Patients can expect to be at the GI center for 3 hours from the time of admission for the procedure to the time of discharge, but you must be picked up no later than 4:30 p.m.**

PLEASE NOTE:

- 1. Our office will provide you with specific instructions if you are taking any of the following medications:**
 - **Insulin**
 - **Anticoagulant medications (blood thinners) such as warfarin (Coumadin, Jantoven), Pradaxa (dabigatran), Xarelto (rivaroxaban), Eliquis (apixaban), Savaysa (edoxaban)**
 - **Antiplatelet medications such as Plavix (clopidogrel), Brilinta (ticagrelor), Effient (prasugrel)**
- 2. If you are a diabetic and taking oral diabetic agents, please do not take these medications the day before and the day of your procedure.**
- 3. If you are taking steroid medications (e.g. prednisone, Decadron, Medrol), please discuss this with our office prior to your procedure.**
- 4. All other medications may be continued, including aspirin and nonsteroidal anti-inflammatory drugs (NSAIDs e.g. Celebrex, Bextra, Voltaren, Naprosyn, Motrin, Advil, Aleve). If you have any questions regarding your medications, please contact our office.**
- 5. Since you will be given intravenous sedation for this examination, you must have a responsible adult drive you home and accompany you into your residence. As well, you must have a responsible adult stay with you for the next 24 hours. You should plan on limiting your activity and resting at home for the remainder of the day. You must not drive a motor vehicle or operate machinery for the next 24 hours. If there is a problem with these arrangements, please inform our office to allow for rescheduling of your procedure. Sedation for your procedure cannot be administered unless these arrangements are completed.**
- 6. If your insurance plan requires a referral from your primary care physician, please confirm that our office has received a referral to cover this procedure. If your insurance plan requires pre-authorization for this procedure, please confirm that our office has obtained the pre-authorization.**
- 7. The forwarded green colored Glens Falls Hospital GI Center Interdisciplinary Pre-Admission History & Physical form must be completed prior to presenting for your procedure. Failure to complete this important form may lead to significant delays and/or cancellation of your procedure(s).**
- 8. Due to the increasing number of patients with high deductible plans, all deductibles, copays, and coinsurance are due five days prior to your appointment. Payment should be mailed or brought to our office at Five Irongate Center, Glens Falls, New York. If our office does not receive payment within the above timeframe, your procedure will need to be rescheduled.**

There are multiple charges you will incur when having a procedure performed. The physician performing your procedure will have a charge, the facility where you have your procedure performed will have a facility charge and if you have a biopsy taken or polyp removed there will also be a fee for pathology services. Most patients will undergo conscious sedation which is given by our physicians and included in the physician charge, but if you are scheduled for anesthesiologist assisted sedation, there will also be a charge for the anesthesiologist.

The Physicians of Gastroenterology Associates of Northern New York, P.C. participate with the following insurance plans:

Aetna
Blue Shield of Northeastern New York
CDPHP
Emblem Health (GHI)
Empire Blue Cross
